

Out of the Blue

(Lyrics ©2018 • Stephen Bloodsworth)

Whenever my heart is open
I can hear what it's saying to me
Sending a secret message,
coming from inside
Coming from out of the blue
where knowledge and truth hide

Out of the blue and into my heart
The fire of Love from a magical spark
All indecision fades away
My heart is open you could say

Sometimes I wonder if my heart
Isn't a portal to all things unknown
For whenever It opens I'm filled with emotion, and
Everything I need to know is perfectly clear

Out of the blue and into my heart
The fire of Love from a magical spark
All indecision fades away
My heart is open you could say

When I need guidance, I look there
Into the vacuum of all things unknown
It doesn't take long before the answers come flowing
Out of the blue and into my heart

Out of the blue and into my heart
The fire of Love from a magical spark
All indecision fades away
My heart is open you could say
